

The spread of Coronavirus (COVID-19) has generated understandable concerns in our community.

*We are **OPEN*** and here to help meet all of your hearing healthcare needs. The health and safety of our patients and staff continues to be of utmost importance at the Hearing Center. With that in mind, we:

- continue to limit the number of patients in our office so that social distancing protocols can be easily maintained.
- continue to screen patients for COVID-19 symptoms, require all visitors to wear a mask and have their temperature taken upon arrival to the office.
- thoroughly clean all patient rooms after every use by using a medical-grade sanitizing solution and then closing off the room for a minimum of 15 minutes while a Molekule PECO filter purifies the air.
- continue to offer CURBSIDE appointments. CURBSIDE appointments allow you to stay in your car while your hearing aids are being cleaned and serviced or while you are getting supplies.
- offer TELEHEALTH visits to review cleaning and care and even programming of your hearing aids if available in your hearing aid technology platform.
- continue to monitor the health of all employees and require all employees to wear a mask and staff members who provide direct patient care to wear medical grade gloves while working with patients.
